WEDDING STYLING

Jodie Randolph-Birch can realise your dreams through the creation of temporary interior styling, reflecting the personality of your day and creating a lasting impression on your guests.

The last hours leading up to the wedding should be spent stress-free and comfortable in the knowledge that your wedding will look and feel as planned.

We will create table top style solutions which will turn your tables into sophisticated statements via bespoke designs that can run through every aspect of your day. Add to the tables a vast array of chairs, draping, lighting, space enhancing props...and your wedding look will exceed your expectations.

. The initial free, no obligation consultation will take place either in the serene surroundings of The Landing or in our beautiful office located at Ascot. During this visit, Jodie will establish your ideas and preferred style.

Perhaps you favour a romantic occasion, ultra modern city chic, fairytale or bohemian look. Working with both bride and groom, the consultation will address the space and requirements of your wedding at The Landing.

Jodie will then forward you a tailor made proposal, based upon this information. Individually priced products and services will allow you to select the most desirable total look.

Please contact us for further details or to make an appointment.
